

THE NATIONAL DIGITAL SECURITY & ANALYSIS WING

साहस. सुरक्षा. समाधान

Here is a list of Code of Conduct and Ethics for the National Digital Security and Analysis Wing (NDSA W):

Code of Conduct

1. **Confidentiality**
 - Maintain the highest level of discretion and confidentiality regarding all operations, data, and personnel.
 - Do not disclose classified information to unauthorized individuals, including within the organization unless required by mission objectives.
 2. **Integrity**
 - Uphold honesty, accountability, and transparency in all activities.
 - Avoid any conflicts of interest or behavior that could compromise the agency's mission or reputation.
 3. **Legal Compliance**
 - Operate within the boundaries of national laws, ensuring that no actions violate privacy, rights, or freedoms of individuals.
 4. **Professionalism**
 - Exhibit exemplary conducts at all times and perform duties diligently with a focus on efficiency and effectiveness.
 - Treat colleagues, collaborators, and external entities with respect and impartiality.
 5. **Duty First**
 - Prioritize the safety, security, and well-being of individuals and society above personal interests.
 - Work tirelessly to detect and prevent harmful activities, including cyber bullying, misinformation, and cybercrime.
 6. **Accountability**
 - Accept responsibility for decisions, outcomes, and actions.
 - Report and address any unethical behavior or security breaches immediately.
 7. **Team Collaboration**
 - Foster a culture of trust, cooperation, and mutual support within the organization.
 - Share knowledge and resources to strengthen collective capabilities.
-

Ethical Principles

- **Respect for Privacy**

Ensure that investigative activities respect the privacy of individuals and do not infringe upon personal freedoms without cause. Adopt minimal-intrusion strategies when collecting data or gathering intelligence.

- **Human Dignity**

Avoid actions that harm the dignity, mental well-being, or physical safety of any individual, irrespective of their role or involvement in a case.

- **Neutrality**

Operate without bias or prejudice, refraining from political, cultural, or ideological influence in decision-making processes.

- **Prevention Over Punishment**

Focus efforts on preventive measures to stop harm before it occurs, rather than punitive responses after the fact.

- **Transparency of Purpose**

Clearly define and limit the scope of operations to safeguard against misuse or abuse of power.

- **Continuous Improvement**

Regularly review protocols, tools, and strategies to adapt to emerging threats and challenges in the digital security landscape.

- **Ethical Use of Technology**

Ensure that all tools, systems, and methods used align with ethical standards and do not exploit vulnerabilities for unjust purposes.

- **Empowerment through Awareness**

Promote education and awareness about online safety, digital responsibility, and the prevention of cyber threats.

- **Humanity**

Never forget your humanity and always consider it as important as your professional duty.

These guidelines are essential for maintaining trust, professionalism, and excellence in the operations of the **NDSAW**

VIOLATIONS OF THESE GUIDELINES WILL BE FOLLOWED WITH STRICT DISCIPLINARY ACTIONS WHICH CAN INCLUDE IN SOME CASES SUSPENSION OR TERMINATION OF THE OFFICERS IN QUESTION!
